EDUCATION

Carnegie Mellon University

Master of Software Engineering | GPA: 3.9/4.0

Pittsburgh, PA

Expected Dec 2026

University of Washington

Bachelor of Computer Science | GPA: 3.85/4.0

Seattle, WA

Dec 2022

PROFESSIONAL EXPERIENCE

PicCollage (Cardinal Blue)

Software Engineer Intern, Web Platform

Taipei, Taiwan

May 2026 – Aug 2026

- Prototyped a web editor in TypeScript, React, and Konva that became the reference for web editor product strategy and cross-platform compatibility planning.
- Shipped 10+ shared SDK features, including text editing, mobile gestures, and extensible context menus, for 5 web products serving 100K monthly active users.
- Configured Claude Code hooks to provide component-specific implementation guidelines, reducing code-review comments about incorrect UI component usage by 60%.
- Built Companion's image-to-3D, authentication, and collectibles APIs with cloud asset storage on a six-person team; earned Top 3 of 31 projects at PicCollage Innofest 2026.

Microsoft Corporation

Software Engineer I, Teams Devices

Redmond, WA

Apr 2023 – Oct 2024

- Owned IntelliFrame and multilingual transcription components for Teams Rooms in C++, C#, and Python, delivering production AI features across legacy and new conference room hardware.
- Automated AI/ML service and end-to-end tests, increasing path coverage from 70% to approximately 99% and reducing regression incident tickets by approximately 30%.
- Optimized CPU inference for 1080p video at 30 fps with the team, reaching approximately 22 ms p95 latency and 98% detection accuracy.

BeaconFire Inc.

Full-Stack Engineer

New Jersey | Remote

Aug 2022 – Dec 2022

- Built a self-service internal platform with React, Next.js, Express, and Redis; implemented API audit logging, tracing, and GitHub Actions deployment automation.

SELECTED PROJECTS

MSA Safety | Product Design Analysis Pipeline

CMU Capstone

- Implemented a Python pipeline integrating Xsens MVN and OpenSim to compare personal protective equipment through joint loading, muscle activation, and energy expenditure.
- Built Flutter web and mobile interfaces and deployed on Google Kubernetes Engine and Azure Kubernetes Service using Helm and GitHub Actions CI/CD.
- Led five teammates and client/mentor meetings; coordinated delivery in Jira, Confluence, and Bitbucket.

Tartan Tickets | Ticketing Platform

Student Team of 5

- Built features end to end across 3 microservices and 40+ API endpoints using React, Node.js, and PostgreSQL; added Prometheus, Loki, Tempo, and Grafana monitoring with Slack alerts.

Splendor | Multiplayer Web Game

Student Team of 4

- Built gameplay and multiplayer features with React, TypeScript, and Socket.IO; applied command-pattern game logic and unit, integration, end-to-end, property, and mutation testing.

TEACHING EXPERIENCE

Carnegie Mellon University

Quality Assurance Teaching Assistant

Pittsburgh, PA

Sep 2026 – Present

- Lead weekly recitations and assess coursework for 40 students.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Go, C++, C#, SQL

AI / ML: PyTorch, TensorFlow, Hugging Face, scikit-learn, computer vision, NLP, Claude Code

Applications / Data: React, Node.js, Express, GraphQL, Flutter, PostgreSQL, MySQL, Redis

Cloud / Delivery: Azure, GCP, AWS, Docker, Kubernetes, Helm, GitHub Actions, Git
